

# **STOP NASTIES EATING INTO YOUR PROFITS**

## **100% Fully Washable, Non-Porous, Food Grade Plastic Produce Crates**

- The Recrate ranges non-porous surfaces and rounded internal corners contribute to hygiene standards that can dramatically reduce the risk of pathogen contamination
- Multiple ventilation slots further prevent contamination by keeping produce at temperatures that help inhibit bacterial or mould reproduction which can ruin or reduce produce dollar value
- Manufactured from 100% recyclable food grade materials
- The Recrate range supports environmental initiatives of many organic growers, through deep nesting delivery and return, thus maximizing freight carrying capacity to reduce delivery trips and carbon emissions
