

NEW PRODUCT LINE

FOOD CRATES WITH TWICE THE APPEAL

**KINDER ON CONTENTS AND NOW FOLDABLE
TO SAVE STORAGE AND DISTRIBUTION COSTS**

- *By folding to a fraction of their assembled height, **Plastic Foldable Crates** stack up as a cost-effective solution for replacing single trip cardboard and wooden distribution containers, both of which create landfill and atmospheric waste issues.*
- *Foldable crates not only save 'empty' transport costs, they also maximize available warehouse storage*
- *Made from 100% recyclable, non-porous food grade materials, **Plastic Foldable Crates** are kinder on contents and easily cleaned to the highest hygiene standards*
- ***Foldable Crates** are easy to assemble and fold down when empty*
